## Professional Summary:

Results-driven Software Developer with 4+ years of experience in designing, developing, and deploying scalable web and mobile applications using Swift, Kotlin, Java, React Native, and Python. Skilled in API integration, cloud services, and CMS platforms like WordPress and HubSpot. Strong background in Agile methodologies, project management, and cross-functional team collaboration. Currently enhancing expertise through a Mobile Application Development Postgraduate Co-op program at George Brown College, Toronto.

## Technical Skills:

- Programming Languages: Swift, Kotlin, Java, JavaScript (React Native), Python, C++, PHP
- Web & CMS Development: WordPress, HubSpot CMS, REST API Integration
- Databases: Firebase, ROOM (Android), UserDefaults (iOS)
- Infrastructure & Tools: GitHub, Expo (React Native), Xcode, Android Studio, Jira, Trello
- Hosting & Deployment Tools: GoDaddy (Domain & Hosting Management), FileZilla (FTP Client)
- Business & Analytical Support: Data analysis, key performance indicators (KPIs) tracking, regulatory compliance
- Collaboration & Communication: Agile methodologies, cross-functional team collaboration, coaching, customer service, technical writing

## Education/Certification:

**Mobile Application Development and Strategy**

**Expected August, 2025**

**George Brown College, Toronto, Ontario**

- Created meaningful design artifacts using modern software engineering methodologies and project management principles
- Implemented native mobile applications for iOS and Android platforms
- Applied UI/UX principles to create fast, reliable, and user-friendly applications
- Developed mobile app solutions independently and in collaborative environments
- Ensured software quality and optimized performance using industry-standard testing methodologies
- Designed and developed competitive mobile applications using innovative strategies

**Project Management**

**January, 2024 - August, 2024**

**St Lawrence College, Scarborough, Ontario**

- Defined, managed, and adapted project scope using industry-standard methodologies
- Led and collaborated with diverse project teams to foster effective communication and achieve project objectives
- Developed time management strategies for efficient project scheduling
- Leveraged business intelligence and emerging technologies to optimize decision-making and project execution

## Professional Experience:

**Software Developer**

**January, 2019 - December, 2024**

**Grazitti Interactive, Panchkula, India**

- Developed and deployed over 15+ web and mobile applications for global clients, improving customer engagement by 30% through optimized performance and UI/UX enhancements
- Integrated REST APIs and third-party services like HubSpot and Salesforce, streamlining client processes and reducing manual efforts by 40%
- Collaborated with cross-functional teams (design, QA, and project management) to deliver projects 15% ahead of deadlines using Agile and Scrum methodologies
- Provided technical support and coached junior developers, improving team productivity and reducing onboarding time by 25%
- Automated internal workflows and reporting systems, increasing operational efficiency by 20%
- Handled domain and hosting management via GoDaddy and managed file transfers using FileZilla for client websites

## Interests:

- Reading books, particularly in genres like fiction, self-development, and technology.
- Listening to classical music and exploring different musical genres for relaxation and inspiration.
- Participating in outdoor activities like hiking and cycling to stay active and connected with nature.
- Engaging in creative pursuits like sketching and photography during leisure time.
